ABOUT THE IIPFWH

The International Indigenous Peoples’ Forum on World Heritage (IIPFWH) was created by indigenous delegates attending 41st session of the UNESCO World Heritage Committee (Poland, 2017).

The IIPFWH was established as a standing global body to represent the voice of indigenous peoples in relation to the Convention and specifically to engage with the committee during its meetings.

The World Heritage Committee noted the formation of the IIPFWH in its “Decision 41COM 7”, which builds on other relevant decisions, e.g.: “Decision 39 COM 11”, and the General Conference “Decision 20 GA 13.”

There is an “urgent need to respect and promote the inherent rights of indigenous peoples, especially their rights to their lands, territories, and resources” -UNDRIP
